DESIGN THINKING CANVAS 1

Upskilling & Networking Platform for Graduates

Team-3

May'25-Sep'25

Name	Roll No.
Trisit Ganguly	21f2000634
Dipanjan Rout	21f3002968
Kartikey Bhandari	21f3002484
Pranshu Jaiswal	21f3001310

Define the **situation**

Create **persona**

Conduct **customerinterviews**

Understand customer needs and obstacles and create **Customer Journey Map**

Identify the problems or pain points and create **How Might We** questions

The Situation

Upskilling & Networking

Goals:

- Enable recent graduates to acquire industry-relevant skills aligned with current job market demands.
- Facilitate meaningful networking opportunities to expand professional connections and access to employment.
- Bridge the gap between academic learning and practical workplace requirements through targeted skill development.
- Empower graduates to secure full-time employment by enhancing both their competencies and professional networks.

Customer Interviews

User Interview by Dipanjan

List of problems & HMWs (How Might We)

Problems

Graduates often lack the practical, industry-relevant skills employers seek in today's job market.

Academic learning doesn't prepare them well for workplace expectations, tools, or workflows.

They struggle to build networks, leading to fewer referrals, role awareness, and mentorship opportunities.

Many graduates feel unprepared to confidently secure full-time roles due to weak portfolios or lack of experience.

HMWs

HMW equip graduates with in-demand skills that align with the current job market?

HMW expand graduates' access to professional networks that open up real job opportunities?

HMW translate academic knowledge into real-world readiness through practical, hands-on learning?

HMW boost graduates' job confidence by helping them build strong portfolios and prepare for interviews?
